OUR GENEROUS SPONSORS

Proceeds From Soil to Sachet will benefit the mission of MFK, which is dedicated to meeting the essential nutritional needs of malnourished children, pregnant and nursing women and school children using Ready-to-Use-Therapeutic Foods (RUTFs) produced in our factory in Cap-Haitien, Haiti. By transferring skills and knowledge to our Haitian workers and engaging farmers to source local raw materials, we break the cycle of poverty and sustainably stimulate economic development.

THE VIRTUAL GALA
BENEFITTING MEDS & FOOD FOR KIDS

Fedlin was brought to malnutrition clinic when he was 2.5 years old, weighing only 20 LB. His mother had died and his father was the primary caregiver for Fedlin and his five siblings. His father carried him two hours by foot to clinic. When he arrived, Fedlin was showing signs of kwashiorkor (malnutrition with swelling) along with fever, diarrhea and vomiting. His feet were so swollen that he was unable to stand due to the pain. Fedlin ate his Medika Mamba each week and gained weight very slowly. After nearly five months of Medika Mamba treatment, Fedlin graduated the program weighing 25 LB. Fedlin is happy, healthy and able to run, ride a bike, and play ball with his friends.
Fedlin was treated at our partner clinic Real Hope for Haiti.
